

## Very High Fire Hazard Severity Zones in LRA As Recommended by CAL FIRE

Fire Hazard Severity Zones	
Local Responsibility Area	State or Federal Responsibility Areas
VHFHSZ	VHFHSZ
Non-VHFHSZ	Non-VHFHSZ
— City Boundary	
— Parcels	
--- County Boundary	

This specific map is based on a geographic information system (GIS) that depicts final CAL FIRE recommendations for Very High Fire Hazard Severity Zones (VHFHSZ). These maps are developed through an extensive local review process, the details of which are available at <http://frap.cdf.ca.gov/projectsearch.html> (click on "Continue as guest" if prompted). Local governments are responsible for adopting VHFHSZs. Local governments can add additional VHFHSZs. There is no requirement for local government to report their final actions to CAL FIRE unless the recommended zones are adopted. Contact your local government or the County fire department or Fire Protection District to determine the status of the local fire hazard severity zone ordinance.

This map was developed using data products such as parcel and city boundaries provided by local government agencies. In certain cases, this includes copyrighted geographic information. The maps are for display purposes only - questions and requests related to parcel or city boundary data should be directed to the appropriate local government entity.
